I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: I use individually compounded hormones which my Doctor prescribes and it has made a tremendous difference in the way I feel. My energy has increased and menopausal symptoms have been alleviated. The compound suits my needs as determined by a saliva test which my Doctor prescribes as well. I depend upon these compounds sent to me efficiently and regularly. Regular pharmacies are not able or interested in providing this service. Do not restrict my access to this as this would negatively effect my well being.
